9 IN THE DISTRICT COURT OF THE UNITED STATES

10 SOUTHERN DISTRICT OF CALIFORNIA

11 CENTRAL DIVISION

12 GONZOLO MENDEZ, et al,

13 Plaintiff,

14 vs.

15 WESTMINSTER SCHOOL DISTRICT
16 OF ORANGE COUNTY, et al.,

17 Defendants.
18 -----

No. 4292 M

DEFENDANTS REPLY BRIEF

19 I

20 A. THE COURT LACKS JURISDICTION OVER THE SUBJECT MATTER IN
21 THAT IT APPEARS FROM THE EVIDENCE AND THE PLEADINGS THAT
22 THERE IS NO SUBSTANTIAL FEDERAL QUESTION INVOLVED.

23 1. Education is purely a State matter within the control of
24 the States. In Cummings v. Richmond Board of Education, 175 U. S. 528,
25 the Supreme Court stated, on page 545:

26 "..... Under the circumstances disclosed, we cannot say
27 that this action of the State Court was, within the mean-
28 ing of the Fourteenth Amendment, a denial by the state to
29 plaintiffs and to those associated with them of the equal
30 protection of the laws or of any privileges belonging to
31 them as citizens of the United States. We may add that
32 while all admit that the benefit and burdens of public
taxation must be shared by citizens without discrimina-

1 tions against any class on account of their race, the
2 education of the people in schools maintained by
3 State taxation is a matter belonging to the respective
4 states, and any interference on the part of Federal
5 Authority with the management of such schools cannot
6 be justified except in the case of a clear and unmis-
7 takable disregard of rights secured by the supreme law
8 of the land."

9 2. The State has under the Constitution of the United States,
10 fulfilled its obligation so far as education is concerned when it has
11 furnished to all pupils within its borders equal facilities for obtain-
12 ing an education at public expense.

13 Gong Lum v. Rice, 275 U. S. 78

14 The Court states on page 85, " The right and power of the
15 states to regulate the method of providing for the educa-
16 tion of its youth at public expense is clear." citing
17 Cummings v. Richmond, 175 U. S. 528.

18 School Dist. No. 7 v. Hunnicutt, 51 Fed. 2d 528

19 Wong Him v. Callahan, 119 Fed. 381

20 Ward v. Flood, 48 Cal. 38

21 It is true that in all the above cases the facts pertained to
22 the separation of the races, while the separation as to race is not in-
23 volved in this case.

24 It is our contention that the racial cases are squarely in
25 point so far as the legal principle applicable is concerned. It is held
26 in all the racial cases that the only provision of the United States Con-
27 stitution applicable is that clause in the Fourteenth Amendment which
28 provides: "... Nor deny to any person within its jurisdiction the equal
29 protection of the laws." (Italics ours). The above clause applies to
30 any person regardless of race. It must certainly be conceded that any
31 individual of any race is a person.

32 In the case of Pace v. State of Alabama, 106 U. S. 583, the Court
states of page 583, referring to the Fourteenth Amendment:

1 "The Counsel is undoubtedly correct in his view of the purpose
2 of the clause of the Amendment in question, that it was to
3 prevent hostile and discriminatory State legislation against
4 any person or class of persons." (Italics ours)

5 The Courts in discussing the racial problems have by analogy
6 referred to problems similar to the one at bar.

7 In the case of Plissy v. Ferguson, 163 U. S. 537, which involved
8 the question of the validity of a statute requiring the providing of
9 separate coaches for persons of the white and persons of the negro race,
10 our Supreme Court in discussing the application of the Fourteenth
11 Amendment, referring to the case of Roberts v. Boston, 5 Cush. 19, states:

12 "One of the earliest of these cases is that of Roberts v. Boston,
13 5 Cush. 198 in which the Supreme Court of Massachusetts held
14 that the general school committee of Boston had power to make
15 provision for the instruction of colored children in separate
16 schools established exclusively for them, and to prohibit
17 their attendance upon the other schools. 'The great principal,'
18 said Chief Justice Shaw, 'advanced by the learned and eloquent
19 Advocate of the plaintiff (Mr. Charles Sumner) is that by the
20 Constitution and laws of Massachusetts, all persons without
21 distinction of age or sex, birth or color, origin or condi-
22 tion, are equal before the law But when this great
23 principle comes to be applied to the actual and various
24 conditions of persons in society, it will not warrant the
25 assertion that men and women are legally clothed with the
26 same civil and political powers, and that children and adults
27 are legally to have the same functions and be subject to the
28 same treatment, but only that the rights of all, as they are
29 settled and regulated by law, are equally entitled to the
30 paternal consideration and protection of the law for their
31 maintenance and security.' It was held that the powers of
32 the committee extended to the establishment of separate schools

1 for children of different sexes and colors, and that they
2 might also establish special schools for poor and neglected
3 children, who have become too old to attend the primary school
4 and yet have not acquired the rudiments of learning, to enable
5 them to enter the ordinary school." (Italics ours).

6 In People v. Gallagher, 93 N. Y. 438, 45 American Reports 232
7 AT PAGE 237, Am. Rep. in construing the Fourteenth Amendment, stated:

8 "It is believed that this provision will be given its full
9 scope and effect when it is so construed as to secure to all
10 citizens, wherever domiciled, equal protection under the
11 laws and the enjoyment of those privileges which belong, as of
12 right, to each individual citizen. This right, as affected by
13 the questions in this case in its fullest sense, is the
14 privilege of obtaining an education under the same advantages
15 and with equal facilities for its acquisition with those enjoyed
16 by any other individual. It is not believed that these provisions
17 were intended to regulate or interfere with the social standing
18 or privileges of the citizen, or to have any other effect than
19 to give to all, without respect to color, age or sex, the same
20 legal rights and the uniform protection of the same laws....."
21 (Italics ours)

22 The Court further stated on page 239:

23 " It would seem to follow, as the necessary result of
24 the appellant's contention, that the action of the legislature
25 of the various States providing schools, asylums, hospitals
26 and benevolent institutions for the exclusive benefit of the
27 colored, as well as other races, must be deemed to be infrac-
28 tions of constitutional provisions and unlawful exercise of
29 legislative power. The literal application of its provisions
30 as interpreted by him would prevent any classification of
31 citizens for any purpose whatever under the laws of the State,
32 and subvert all such associations as are limited in their

1 enjoyment to classes distinguished either by sex, race, nation-
2 ality or creed. If the argument should be followed out to its
3 legitimate conclusion, it would also forbid all classification
4 of the pupils in public schools founded upon distinctions of
5 sex, nationality or race, and which, it must be conceded, are
6 essential to the most advantageous administration of educational
7 facilities in such schools. Seeing the force of these conten-
8 tions the appellant concedes that discrimination may be exer-
9 cised by the school authorities with respect to age, sex, in-
10 tellectual acquirements and territorial location, but he claims
11 that this cannot, under the Constitution, be extended to dis-
12 tinctions founded upon difference in color or race. We think
13 the concession fatal to his argument.

14 The language of the amendment is broad, and exhibits every
15 discrimination between citizens as to those rights which are
16 placed under its protection. If the right therefore of school
17 authorities to discriminate, in the exercise of their discretion,
18 as to the methods of education to be pursued with different
19 classes of pupils be conceded, how can it be argued that they
20 have not the power, in the best interests of education, to
21 cause different races and nationalities, whose requirements are
22 manifestly different, to be educated at separate places?"

23 (Italics ours).

24 In Cory v. Carter, 48 Ind. 327, 17Am. Rep. 738, the Court states
25 on page 761, Am. Rep. 738:

26 " The Federal constitution does not provide for any general
27 system of education, to be conducted and controlled by the
28 national government, nor does it vest in Congress any power
29 to exercise a general or special supervision over the States
30 on the subject of education..."

31 On page 762, the Court states further:

32 "There being no further restriction upon the legislative power

1 and discretion, it necessarily follows, that in pro-
2 viding for this system of schools, the legislature is
3 left free to fix the qualifications of pupils to be ad-
4 mitted to its benefits, as respects age and capacity to
5 learn; to classify them with reference to age, sex,
6 advancement and the branches of learning they are to
7 pursue; to provide for the location and building of
8 schoolhouses; and to designate to what schools and in
9 what schoolhouses the different ages, sexes and degrees
10 of proficiency shall be assigned; for these all concern
11 the good order and success of the system." (Italics ours)

12 Further, on page 763, the Court states:

13 "In this system, there ought to be and must be a classifi-
14 cation of the children. This classification ought to and
15 will be with reference to some properties or characteristics
16 common to or possessed by a certain number out of the whole;
17 and these classes may be put into and taught in different
18 parts of the same school, or different rooms in the same
19 school-house, or different school-houses, as convenience
20 and good policy may require..." (Italics ours).

21
22 B. THE COURT LACKS JURISDICTION OF THE SUBJECT MATTER IN
23 THAT THE EVIDENCE FAILS TO SHOW THAT PLAINTIFFS OR EITHER
24 OR ANY OF THEM WERE DEPRIVED OF ANY CIVIL RIGHTS, PURSUANT
25 TO ANY LAW, RULE OR REGULATION OF THE STATE OF CALIFORNIA,
26 OR AT ALL.

27 1. In discussing the above jurisdictional problem, we deem
28 it necessary to take up the questions separately as to the Garden grove
29 District. We feel that as to this particular District the factual
30 situation is different.

31 GARDEN GROVE SCHOOL DISTRICT-

32 For the purpose of illustrating the point, we will assume
that Mrs. Ochola is a proper party plaintiff in this action, and we
will assume that her testimony is true. Basing its finding upon the

1 foregoing assumptions, this Court would find that she lived within a few
2 blocks of the Lincoln School and that her children spoke the English
3 language to some degree of efficiency.

4 The rule of admission of pupils in said District as adopted
5 by the Board of Trustees on September 13, 1944, provided:

6 "Some problems were presented regarding the attendance
7 of Mexican pupils in the school. After some discussion
8 a motion was made by Mr. Applebury and seconded by Mr.
9 Smith that a policy be adopted whereby there be no
10 segregation of pupils on a racial basis, but that non-
11 English speaking pupils, so far as practical should
12 attend schools where they can be given special instruc-
13 tion, that is not necessary for English speaking pupils,
14 and that due regard be given to the proximity of the
15 pupils residence to the nearest school."

16 Therefore, assuming that Mrs. Ochola's testimony is true, and
17 viewing it most favorable to her contention, we must conclude that Mr.
18 Kent in excluding the Ochola children was acting contrary to and in
19 violation of the rule established by the Board of Trustees. He gave no
20 consideration to the ability of the children to speak the English lan-
21 guage nor due or any consideration "to the proximity of the pupils
22 residence to the nearest school". If such are the facts, any Superior
23 Court of the State of California would upon application grant a writ of
24 mandate, based not upon a violation of the United States Constitution,
25 nor a violation of any statute of the State of California, but upon a
26 plain and clear violation of the rule of the governing board of the
27 Garden Grove School District.

28 If we take the same assumptions in regard to Mrs. Sianez who
29 resided nearest to the Bolsa School, the same conclusion would necess-
30 arily follow.

31 Whatever may have been the policy of the Board of Trustees prior
32 to September 13, 1944, the policy thereafter is clearly set forth in the

1 above Resolution.

2 In Snowden v. Hughes, 132 Fed. 2d 476, C. C. 75 Dist., the
3 Court states on page 478:

4 "it has always been accepted that the Fourteenth Amendment
5 does not apply to the acts of individuals, (State of Virginia
6 v. Rines, 100 U. S. 313, 25 Fed. 667; United States v. Harris,
7 106 U. S. 629, 1 S. Ct. 601, 27 Fed. 290) that the protection
8 it offers is only against the acts of States."

9 The Supreme Court, in reviewing and affirming the above case,
10 in Snowden v. Hughes, 321 U. S. 1, 88 L. Ed. 497, Mr. Justice Frank-
11 furter in his concurring opinion on page 16, states:

12 "..... But to constitute such unjust discrimination the
13 action must be that of the state. Since the state, for
14 present purposes, can only act through functionaries, the
15 question naturally arises what functionaries, acting under
16 what circumstances, are to be deemed the state for purposes
17 of bringing suit in the federal courts on the basis of
18 illegal state action. The problem is beset with inherent
19 difficulties and not unnaturally has had a fluctuating
20 history in the decisions of the Court. (citing cases).
21 It is not to be resolved by abstract considerations such
22 as the fact that every official who purports to wield
23 power conferred by a state is pro tanto the state. Other-
24 wise every illegal discrimination by a policeman on the
25 beat would be state action for purpose of suit in a
26 federal court."

27 In the case of FRANK PALOMINO, here the petitioner presents
28 a stale demand in any view we take of the evidence. Petitioner has
29 made no effort since 1941 to enter either of his children in any school
30 within the Garden Grove District. Reporters' transcript, page 49, line
31 7 to page 51, line 19. He lived nearer to the Hoover School than to
32 any other school in the District. If the School Board had any legal

1 right to require his children to attend the Hoover School, it would be
2 immaterial that they based their refusal to transfer his children on an
3 untenable ground. The Court will not pass upon constitutional issues if
4 the case may be decided upon another ground.

5 In Precision Casting Co. v. Boland, 13 Fed. Sup. 877, the Court
6 states on page 882, #4:

7 "Nor will the Court decide questions of a constitutional
8 nature unless absolutely necessary to a decision of the
9 case (Burton v. United States, 196 U. S. 283, 295, 25 S. Ct.
10 243, 49 L. Ed. 482), and never until the facts upon which
11 its constitutionality depend are before the Court, (Abrams
12 v. Van Schaick, 293 U. S. 188, 55 S. Ct. 135, 79 L. Ed. 278)
13 nor if there is also present some other ground upon which dis-
14 position may be made of the case. (Ogden v. Saunders, Supra)."
15 Section 2204 of the Education Code of the State of California
16 provides in part:

17 "2204. The governing board of any school district shall:
18 (a) Prescribe and enforce rules not inconsistent with law
19 or with the rules prescribed by the State Board of Education,
20 for its own government, and for the government of the schools
21 under its jurisdiction...."

22 In view of the general duty of the school board with reference
23 to the administration of the affairs of the various schools within the
24 District, it must be implied that it has the power to require a pupil
25 to attend the school in the District nearest to which he resides.
26 Clearly then, on any theory of the facts, Mr. Palomino cannot base his
27 case on the violation of any civil rights guaranteed by the Federal
28 Constitution.

29 There is no evidence that the petitioner nor any witness
30 produced by plaintiff ever at any time applied to the Governing Board
31 of the District to admit their children to any school in this District.
32 No complaint was ever made to the Board of Trustees.

1 C. SCHOOL DISTRICTS ARE MERE ADMINISTRATIVE AGENCIES OF THE
2 STATE. ACTIONS OF SUCH DISTRICTS CANNOT BE CONSIDERED
3 STATE ACTION, WITHIN THE MEANING OF THE FOURTEENTH AMENDMENT.

4 In Denman v. Weber, 139 Cal. 452, the Court stated at page 454:

5 "As has been said by this court, 'school districts' are
6 quasi corporations of the most limited powers known to the
7 laws. The trustees have special powers, and cannot exceed
8 the limit. They are special agents without general power
9 to represent the district." (Citing Shelly v. School District,
10 103 Cal. 652).

11 School Districts do not have police powers, Pasadena School
12 District v. Pasadena, 166 Cal. 7.

13 Section 2204 of the Education Code provides in part:

14 "2204. The governing board of any school district shall:

15 (a) Prescribe and enforce rules not inconsistent with law
16 or with the rules prescribed by the State Board of Education,
17 for its own government, and for the government of the schools
18 under its jurisdiction..."

19 Section 2204 of the Education Code of the State of California
20 specifically enjoins the governing board of any school district from
21 making or enforcing any rules 'inconsistent with law or with the rules
22 prescribed by the State Board of Education'. Certainly the Constitution
23 of the United States is the law of California.

24 It must follow, therefore, that if the rules of the several
25 districts are in conflict with any provision of the United States Consti-
26 tution, they are expressly in violation of Section 2204 of the Education
27 Code.

28 Here we have the action of the most limited agency known to
29 the law, which the petitioners seek to charge as actions of the State of
30 California.

31 California Oil & Gas Co., etc. v. Millar, et al, 96 Fed. 12,
32 at page 22:

"Said title 24 embraces Section 1979 above quoted. The

1 liability declared in said Section 1979 for depriving a
2 person of rights, privileges, or immunities secured by
3 the constitution and laws of the United States manifestly
4 depends upon the fact that such deprivation be under color
5 of some statute, ordinance, etc. of a State or territory;
6 and, therefore, to constitute a cause of action under said
7 Section, the plaintiff must show, as part of his case,
8 that defendant claims to act under color of a statute,
9 ordinance, etc. of a State or territory."

10 In Jones v. Oklahoma City, et al, 78 F. 2d 86, C. C. of
11 Appeals, Tenth Circuit from syllabus, page 860:

12 "District Court held without jurisdiction to entertain
13 bill to restrain enforcement of segregation ordinance
14 excluding negroes and whites from residing in certain
15 districts, where there was no diverse citizenship."

16 Referring to the petition, the Court stated on page 861,
17 in holding the complaint insufficient:

18 "There is no allegation of state action in authorizing
19 adoption of the ordinance or its enforcement—legislative,
20 judicial or executive."

21 United Mine Workers of America v. Chapin, 286 Fed. 959,
22 District Court, S. D. West Virginia, the Court states on page 962:

23 "As I view the case, this court has no jurisdiction,
24 because the acts charged are not done under or pursuant
25 to any law of the State of West Virginia."

26 A leading case on this point is Snowden v. Hughes, 321
27 U. S. 1, and particularly pertinent is the concurring opinion of Mr.
28 Justice Frankfurter in said case.

1 ANSWER TO THE BRIEF OF AMICI CURIAE AND
2 PLAINTIFF AS TO THE JURISDICTION OF THIS COURT

3 I

4 The Amici Curiae and Plaintiff in their brief wholly ignore the
5 fundamental question upon which jurisdiction of this Court depends, which
6 is WHERE A SCHOOL DISTRICT HAS CLASSIFIED PUPILS INTO TWO CLASSES AND HAS
7 FURNISHED TO EACH CLASS EXACTLY THE SAME EDUCATION AT EQUALLY CONVENIENT
8 LOCATIONS, HAS SUCH DISTRICT VIOLATED ANY PROVISION OF THE UNITED STATES
9 CONSTITUTION OR ANY LAW OF THE UNITED STATES? In fact in Plaintiffs'
10 brief on page 4, line 13 to 16, Plaintiff states:

11 "In the instant case the petitioners do not claim that
12 the rights of the children to attend the public schools,
13 which right is undoubtedly created by the State Consti-
14 tution and laws, has been violated."

15 Both the brief of the Amici Curiae and the Plaintiff assume the violation
16 by Defendants of a violation of the Fourteenth Amendment to the Consti-
17 tution. The cases relied upon by Defendants all hold that where equal
18 facilities are furnished to the different classes of persons with equal con-
19 venience to both, there is no violation of the Fourteenth Amendment nor
20 any law of the United States.

21 We have pointed out in our brief that a person is a person within
22 the meaning of the Constitution, whether he be Negroe, Chinaman, Japanese,
23 or of Mexican or Anglo-Saxon descent, and if it be the law, which it
24 has been held to be in all cases before the courts, that a colored cit-
25 izen has not been denied the equal protection of the laws where he has
26 been given an equal education with others although at a different loca-
27 tion, how can it be held that a citizen of any other race would be denied
28 equal protection of the laws under the same circumstances?

29 In all cases cited by Amici Curiae it was alleged or was a fact
30 that one class of persons were denied something that was allowed to
31 other classes of persons.

32 In the case of American Sugar Refining Company v Louisiana
179 U. S. 89 cited by Amici Curiae, the question involved was a tax
matter and whether or not the classifications for tax purposes was

1 reasonable and Juarez v State 107 Tex. Cr. 277, catholics were excluded
2 from grand juries.

3 In the case at bar the petitioners were not excluded from anything.
4 The petitioners received exactly the same priveleges as any other cit-
5 izens.

6 Likewise in Bell's Gap R.R. v Pennsylvania 134 U. S. 232,
7 the quotation set out by Amici Curiae has no application to the facts in
8 this case, and the same comment would apply to the case of Missouri v
9 Lewis 101 U.S. 22 as well as Rawlins v Georgia 201 U.S. 638, Traux v
10 Raich 239 U.S. 33 and other cases cited by Amici Curiae.

11 II

12 Amici Curiae to support their contention that the rule of the
13 school district would be construed to be under color of any law, cites
14 the case of Barnette v West Virginia State Board of Education 319 U.S.
15 624. An examination of this case shows that under the laws of West
16 Virginia the State Board of Education was granted by an express Legis-
17 lative Act, the right to prescribe the course of studies of all courses
18 and study, and control the education of all pupils in the elementary
19 schools, and that the rule adopted by said Board under express authority
20 of the Legislature required that all pupils in the public as well as
21 private schools be required to salute the Flag, and in the event that
22 they did not comply with such rule, they were excluded from school,
23 and/would be subject to prosecution if they failed to send their children
24 to school. The authority granted to the Board of Education was granted
25 expressly by the Legislature and the Board in adopting the rule was
26 carrying out the express mandate of the Legislature.

27 As we have pointed out in our brief, in California, a
28 local school board may make only such rules as are provided for in
29 Section 2204 of the Education Code, which rules must not be:

30 ".....inconsistent with law or with the rules pre-
31 scribed by the State Board of Education....."
32

1 In Screws v United States 89 L. Ed 1029 cited by Amici
2 Curiae, the court based its decision upon the fact that in making the
3 arrest and retaining Hall in custody, the officers were acting directly
4 under and pursuant to the laws of the State of Georgia.

5 In the case of Missouri ex Rel Gaines v Canada 305 U.S. 337
6 the court stated on page 344,

7 ".....in that view it necessarily followed that the
8 Curators of the University of Missouri acted in
9 accordance with the policy of the state in denying
10 petitioner admission to its school of law upon the
11 sole ground of his race".

12 In the case of Hague v C.I.O. 307 U.S. 496, the ordinance in
13 question was adopted and enforced by a city pursuant to its police
14 powers, expressly granted to the city by the Constitution of New Jersey.
15 As we have heretofore pointed out in our brief, a school district in
16 California has no police power.

17 III

18 Plaintiff in his brief cites the case of Hamilton v Univer-
19 sity of California 293 U.S. 245, it will be noted in that case that
20 under the law and Constitution of the State of California it was the
21 duty of the Board of Regents to determine who and to what extent mil-
22 itary training should be required in the University, and the act of
23 the Board of Regents would necessarily have the sanction of state law.

24 In the case at bar it is not alleged in the complaint that the
25 Defendants or any of them were acting under any law or color of any law
26 of the State of California, nor is it alleged in said complaint that
27 the petitioners or any of them were denied anything which was granted
28 to other citizens, nor is there any evidence in this case that the
29 Defendants were acting pursuant to or under color of any law of the
30 State of California.

1 IV

2 As a last contention, Amici Curiae contends that this Court
3 having acquired jurisdiction the case should be decided pursuant to the
4 law of California. It is our contention that neither the Complaint nor
5 the evidence shows any facts which would constitute violation of the
6 Constitution of the U. S. Such a showing would be imperative for this
7 Court to assume jurisdiction as stated in the case of Williams v Miller
8 48 Fed. Sup. 277 at page 279:

9 "For a plaintiff to invoke successfully the juris-
10 diction of the District Court on the ground that
11 he seeks protection of a federal right, his com-
12 plaint on its face must appear to raise a substan-
13 tial/^{federal}question; a mere claim in words is not sufficient
14 (citing cases). No substantial question is pre-
15 sented by a contention which is obviously without
16 merit (citing cases) or on which the Supreme Court
17 has already ruled adversely (citing cases) and a
18 District Court is without jurisdiction."

19 The exact question involved in this case has never been de-
20 cided by any court in the State of California. Section 8003 of the
21 Education Code cited by Amici Curiae permits a racial segregation and in
22 our opinion any segregation upon a racial basis other than as permitted
23 by said Section would be contrary to the laws of the State of California.
24 However this case does not involve a racial segregation. Here we have
25 school districts where an unusually large mass of people who are un-
26 familiar with the English language congregate, often at great distances
27 from other schools established in the district and it becomes necessary
28 for the purpose of aiding these people to provide accommodations at
29 locations close to where they live, due to the transportation problem of
30 transporting them to other localities where schools are maintained. They
31 do have a language handicap and the necessity of providing special in-
32 struction to overcome such handicap is apparent.

1 Having established the facilities for special instruction at
2 the location where these people live, it would not seem to be unlawful
3 under the law of California, to require pupils residing in the district,
4 but not close to the schools where these special facilities are available,
5 to attend that school in the district where special instruction may be
6 given.

7 We can be reasonably certain that under the law of California,
8 no school district would be required to pick pupils up where they reside,
9 especially where they reside in numbers as high as 275, and transport
10 these pupils 2 or 3 miles for the purpose of mixing them with pupils of
11 other descent than their own.

12 However the matter has not been decided by any court in
13 California, and as the practice definitely cannot be considered a viola-
14 tion of the Constitution of the United States or of any law of the United
15 States, the matter should be presented for determination in a state court.

16 We submit that under the pleadings and under the facts in
17 this case, that it appears that this Court does not have jurisdiction,
18 as neither the pleadings nor the evidence show any violation of the
19 Constitution of the United States or any law of the United States and
20 further, that the evidence wholly fails to show that the Defendants or
21 any of them were deprived of any civil rights under or pursuant to any law,
22 ordinance or custom of the State of California.

23
24 SEGREGATION AS SHOWN BY THE EVIDENCE DOES NOT
 SHOW UNJUST DISCRIMINATION.

25 In discussing this question, we shall discuss each district
26 separately as we believe that there are substantial differences in the
27 factual situation in each district.

28 GARDEN GROVE SCHOOL DISTRICT-

29 In this district there are three schools which furnish in-
30 struction from kindergarten to the 5th grade inclusive, to-wit: the
31 Lincoln, Bolsa and Hoover Schools. The Fitz School maintained by this
32 District instructs in the 6th, 7th and 8th grades, in which there is no

1 segregation by reason of language, handicap or at all. It was admitted
2 at the trial that the instruction and facilities in each of the schools
3 are identical. The evidence shows that in addition to the facilities
4 furnished in the Lincoln and Bolsa Schools, specially qualified teachers,
5 and special instruction is given to the pupils of the Hoover School.
6 Reporters' Transcript pages 101, line 12 to page 103, line 11.

7 The purpose of the special instruction and qualified teachers
8 is for the purpose of assisting the pupils at Hoover School in their
9 understanding of the English language.

10 That the pupils at the Hoover School are handicapped by their
11 lack of understanding of the English language cannot be questioned.
12 Reporters' Transcript, pages 101, line 12 to page 103, line 1.

13 Can it be said that the School Board was unjust in providing
14 special instructors and special instruction to these pupils who were
15 deficient in their English: If the Board is to be considered unjust,
16 who is it unjust to? Would it be to the pupils of Hoover School, or to
17 the pupils of Lincoln and Bolsa Schools?

18 We cannot see any injustice in the action of the Board, in
19 requiring pupils who are deficient in the English language to attend the
20 school in the District where special aids and experienced teachers are
21 provided to assist those pupils to overcome that specific deficiency.

22 The evidence shows that of the pupils attending the Hoover
23 School, 279 of them reside nearer to the Hoover School than to either
24 the Bolsa or Lincoln School. Reporters' Transcript, page 56, line 15 to 16
25 and that of the 522 pupils attending the Lincoln and Bolsa schools, 492
26 of them reside nearer to the Lincoln and Bolsa schools than they do to
27 the Hoover School.

28 The Hoover School is one and one-half to two miles distance
29 from the Lincoln School and about the same from the Bolsa School.
30 Reporters' Transcript, pages 637, line 22, page 638, line 1, page 56
31 line 16 to 18. It will be seen therefore, that at least 279 of the
32 pupils attending the Hoover School have segregated themselves by being

1 in the community surrounding the school.

2 The evidence shows that some 30 pupils other than Spanish
3 speaking pupils, residing nearer to the Hoover School are transported to
4 either the Lincoln or Bolsa School. Reporters' Transcript, page 517,
5 line 12 to 17. Can this be deemed unjust discrimination? Again the
6 question arises, who is it unjust discrimination against? Would it benefit
7 the Spanish speaking pupils to have 30 others in their school? Would it
8 benefit the 30 others to attend the same school as the 279 Spanish speak-
9 ing pupils attend?

10 There is no question under the evidence but that the Spanish
11 speaking pupils are retarded for at least two years by reason of their
12 language handicap. Would it be good Educational Policy to require these
13 30 pupils to attend the Lincoln or Bolsa School for two years and there-
14 after to attend the Hoover School? It would seem to us that the better
15 policy would be that followed by the Board of Trustees, to-wit: that
16 having once enrolled in either the Lincoln or Bolsa School and having
17 made acquaintances and associations in that school, the pupil be permitted
18 to remain there until graduating from the 5th grade.

19 Surely the transferring of the pupils from one school to
20 another would not benefit the morale of the pupil transferred, and such
21 procedure could not possibly be of assistance to the pupils in the Hoover
22 School.

23 We feel that a far more serious question of unjust discrim-
24 ination would arise should this District attempt to mix the pupils in the
25 District.

26 The Spanish speaking people have a constitutional right to
27 live wherever they want to live, and they have a constitutional right to
28 speak the Spanish language among themselves and in their homes. As
29 shown by the evidence, 279 of the 292 pupils enrolled in the Hoover School
30 reside nearer that school than any other school, the distances from the
31 Bolsa or Lincoln Schools being from one and one-half to two miles.

32 Assuming that the District attempted to mix the pupils, it

1 would be necessary to decide which individual pupils would be required to
2 transfer to Lincoln, and which of the others now at Lincoln would be re-
3 quired to transfer to Hoover. If the transfer was required on an attain-
4 ment basis, the pupil upon transfer would be marked either as one of high
5 or low attainment immediately, and would become the object of envy or
6 ridicule. Thus would class antagonism be fostered.

7 If the transfers were on a level of attainment, it could re-
8 sult in the high level all going to Bolsa, the middle level going to
9 Hoover, and the low level going to Lincoln, which would brand each pupil
10 in the community either as high class, middle class or low class; this in
11 the common school system of California.

12 It will be seen that of the 292 Spanish speaking pupils in
13 this District, 279 of them are segregated by their own act of living in
14 the community surrounding the Hoover School, and only 13 of them are
15 segregated by reason of the rule of the School Board. We cannot see how
16 it can be considered unwise or unjust to require the 13 to attend the
17 only school in the District where special facilities are necessarily pro-
18 vided to take care of the identical language difficulty these 13 are
19 handicapped by.

20 Under the provisions of Section 2204 of the Education Code,
21 the Board of Trustees of any school district may make reasonable regul-
22 ations for the allocation of pupils to the schools maintained by it, and
23 in any event may lawfully require pupils to attend the school located
24 nearest to his residence, and may in its discretion permit certain pupils
25 for any cause which the trustees deem reasonable, to attend a school other
26 than the closest to his residence.

27 The petitioner in this district lived nearest to the Hoover
28 School is, therefore, in a different class than is Mrs. Ochola and the
29 other witness. Just what motive he had back in 1941 in requesting to
30 enroll his children in the Lincoln School is not at all clear from the
31 evidence. It does appear that he enrolled the children in the Catholic
32 School where Sally is now in attendance. He never requested that Sally be

1 enrolled in any school in the Garden Grove District, and did enroll his
2 son Arthur in the Freemont School in the Santa Ana District.

3 As to the Ochoa children Mr. Kent testified;

4 "Q Then, Mr. Kent, tell me what you remember of
5 the policy of the Board, if that was an inadvertence
6 on your part. What was the policy of the Board?

7 A I have just related it. Do you want me to do it
8 again?

9 Q Yes. Will you, please, sir?

10 A We were to take into consideration the ability of
11 the child to speak English, and the proximity of the
12 home, the adaptability of the child to the assimila-
13 tion of the school subjects taught, and that if we felt
14 it advisable, we should send the children to the
15 Hoover School where we have special teachers, and if
16 we felt they could do the subject-matters, or they
17 were sufficiently adapted, they were to be given an
18 opportunity in the other schools upon request.

19 Q However, if there was no request made, the
20 children of Spanish descent were to go to the
21 Hoover School?

22 A No, no. Would you like me to explain that further?

23 Q Yes, sir.

24 A What you asked was, if no requests were made they
25 would automatically go to the Hoover. That is not
26 true. When they start school, if they were able to
27 come up to the English-speaking students, or Lincoln
28 School students, I had the right to place them in
29 the Lincoln School. But in this particular case, I
30 believe that it was merely a trial, and I placed
31 Mrs. Ochoa's children there, and during the year I
32 had 1300 children to think about, and I forgot com-

1 pletely about Mrs. Ochoa, but if she had made a
2 request, if Mrs. Ochoa had, we certainly would
3 have granted it. I have never had a request from
4 Mrs. Ochoa during the entire year."

5 If it be the purpose of this District to segregate pupils
6 solely upon the ground that they are of Mexican descent, why is it that
7 all the children after completing the 5th grade are put together in the
8 Fitz School?

9 SANTA ANA SCHOOL DISTRICT -

10 It is our contention that in this District there is no segre-
11 gation of pupils by reason of any rule or regulation of the Board of
12 Education. Here the segregation is made by the people of Mexican descent
13 themselves. The general policy of the Board is that the pupil must
14 attend the school located in the zone in which he lives.

15 The record shows that 95% of the people residing in the
16 Fremont School zone are of Mexican descent. Reporters' Transcript page
17 591, line 20, that there are 325 pupils in attendance. Reporters' Trans-
18 cript page 576, line 11, that it has ~~eight~~^{ten} teachers; that the pupil load
19 per teacher is $32 \frac{1}{2}$. Reporters' Transcript page 576, line 11. The
20 Franklin now has more pupils per teacher than the city average. Reporters'
21 Transcript page 576, line 17. It appears that the east line of the
22 Fremont zone passes through a Mexican community placing some Mexican
23 descents in the Franklin School. Reporters' Transcript page 591, line 4
24 to 17.

25 That the Franklin School is filled to capacity and that it
26 would require alterations to increase its capacity, and that the pupil
27 load per teacher is 34. Reporters' Transcript page 576, line 8.

28 It further appears that the Wilson School is filled and that
29 the pupil load per teacher is $32 \frac{1}{2}$. Reporters' Transcript page 577, line
30 2 to 5. It further appears that there are in attendance at the Franklin
31 School 76 of Mexican descent and 161 others; in the Lowell School there
32 are 5 of Mexican descent and 292 others; in the McKinley School, 20 of

1 Mexican descent and 237 others; in the Roosevelt School, 90 of Mexican
2 descent and 180 others; in the Muir School, 63 of Mexican descent and 80
3 others; in the Lincoln School, 12 of Mexican descent and 69 others; in
4 the Edison School 9 of Mexican descent and 323 others.

5 The evidence fails to show any plan or scheme on the part of
6 the Board of Education to segregate pupils of Mexican descent solely on
7 the ground they are of Mexican descent. The lines were drawn for the
8 sole purpose of allocating the pupils to the several schools in propor-
9 tion to the facilities available at the several schools and the evidence
10 shows that the Board did a fair and honest job of allocation of pupils.

11 How can it be considered unjust or arbitrary for the Board to
12 locate one of the finest school plants in the District right in the com-
13 munity inhabited by people of Mexican descent? Was it unjust to provide
14 that community with a civic center and playgrounds for civic activities
15 and recreation?

16 The pupils attending the school seem not to think it unjust.
17 The Fremont has the best attendance record in the City. Reporters'
18 Transcript page 569, line 21.

19 The pupils in all zones are permitted to attend the school
20 maintained in that zone regardless of their origin. Reporters' Transcript
21 page 620, line 12 to page 624, line 22.

22 In the Fremont zone some 12 or 14 pupils of Mexican descent
23 are permitted to transfer to the Franklin School, and 26 other than of
24 Mexican descent are permitted to transfer. None are required to transfer.
25 Reporters' Transcript page 620, line 13.

26 In the Delhi zone there are 232 pupils of Mexican descent.
27 Reporters' Transcript page 213, line 51. That there are residing within
28 this zone 5 pupils who are not of Mexican descent, who are permitted to
29 transfer to another school. Reporters' Transcript page 214, line 7 to
30 line 10. Last year there was in attendance at this school one pupil of
31 other than Mexican descent. Reporters' Transcript page 614, line 16 to
32 20. The Logan District is a solid little Mexican center and there is no
evidence that transfers have been requested. Reporters' Transcript page
622, line 4 to 10.

1 If the Board sought by plan and design to segregate pupils of
2 Mexican descent upon that ground, why is it that there are pupils of
3 Mexican descent in every school, except three in the District?

4 In referring to the authority of a Board of Education to
5 divide a district into sub-districts, the Ill.App. Court held in People
6 vs Board of Education, 26 Ill. A. page 476:

7 1. "It is within the power of a Board of Education to lay off
8 and divide the district into sub-districts, establish therein schools of
9 different grades and apportion pupils to the several schools."

10 2. "If, in the exercise of these powers, the rules and orders
11 made are reasonable, necessary and such as will best afford all children
12 of school age within the district the benefits of proper instruction,
13 they will be sustained by the courts."

14 In the case of Reed v. Mason County Board of Education, 220
15 Ky. 489, 295 S. W. 436, the court of Appeal of Kentucky in constructing
16 statutes of that State which provided:

17 "Subject to the course of study and to the by-laws and pol-
18 icies of the State Board of Education, the County Board of Education shall
19 determine by the consent and advice of the County Superintendent the
20 educational policies of the County, and shall prescribe rules and regu-
21 lations for the conduct and management of the schools."

22 The County Board of Education, subject to the laws and
23 regulations of the State Board of Education, shall, with the advice and
24 assistance of the County Superintendent, administer, grade and standardize
25 the schools under its jurisdiction.

26 Held, page 437, "Under these sections of the Statutes, the
27 County Board of Education undoubtedly has the power to lay off the County
28 into high school districts and to provide that those who reside in the
29 respective high school districts shall attend the high school in that
30 district, at least where it acts reasonably in so doing. Without this
31 power, the County Board of Education, having provided educational facili-
32 ties for all the students of a district, might be compelled to provide

1 other facilities for such students who might wish to attend other schools.
2 Such a situation would tend to disrupt the financial arrangements of the
3 Board and in a large measure to defeat the educational policy."

4 State vs Board of Education of Wilmington School District,
5 28 N. E. Rep. 2d at page 497, Supreme Court of Ohio, June 26, 1940:

6 "Relators' suit is based upon the claim that their children
7 are being deprived of their right to attend the elementary school in the
8 district most convenient to their home in furtherance of a purpose of the
9 board of education to make the Midland School a segregated school for the
10 exclusive use, accommodation and training of "colored children."

11 The respondents claim that the Midland School has adequate
12 facilities; is fully equipped; offers the same courses of instruction as
13 every other public elementary school in the district; uses the same text
14 books; has competent teachers and provides every advantage for the ac-
15 quisition of education that is furnished in any other public elementary
16 school of the district; that the assignment of the children of relators
17 to the Midland School was made by the Board of Education under and pur-
18 suant to its discretionary authority conferred by statute to equalize the
19 number of students in the various schools in the district according to the
20 physical accommodation of the school; that such assignment was made by
21 the Board of Education in good faith in an effort to best promote the
22 interests of education in such district; and to facilitate such purpose,
23 motor bus transportation has been provided for all pupils living in ex-
24 cess of one mile from the school to which they are assigned, and is now
25 and has been available to the relators' children.

26 There is no evidence in the record, nor is it claimed that
27 the Board of Education has taken action by resolution or otherwise to
28 make the Midland School a segregated school for Negroe children. The
29 superintendent of schools, when called by the relators', testified that
30 the assignment of pupils is not and cannot be made according to geo-
31 graphical lines; that the Smith Place School is located in the most
32

1 densely populated portion of the City and that half the grade pupils of the
2 City live in "very close proximity" thereto. It thus became necessary to
3 assign many pupils in that vicinity to other buildings, each case being
4 considered on its own facts, the general intention and purpose being to
5 so allocate the pupils that each school would have approximately the same
6 number of pupils per room and the same cost of instruction per pupil.

7 Though there was a less number of pupils in the Midland School,
8 there was approximately the same number of pupils per room as in the
9 other schools. It is conceded that the equipment, teaching facilities
10 and other accommodations of the Midland School are in every way equal to
11 those provided for the other schools. The relators' in their testimony
12 indicated their complaint was not based upon any racial distinction, but
13 only upon inconvenience. The record shows the following testimony of one
14 of the relators:

15 The Court: "You have no objection now to the Midland School
16 by reason of distance or anything of that kind?"

17 Answer: "No, I don't. Other than I asked permission to
18 send them to the school nearest my home."

19 Question: "There is no other reason why they shouldn't go
20 to the Midland School now, so far as you are concerned?"

21 Answer: "No, there isn't. Only I would like for them to
22 to to the school nearest home. It would be more conven-
23 ient for me."

24 Section 7684, General Code, provides as follows:

25 "Boards of Education may make such an assignment of the youth
26 of their respective districts to the schools established
27 by them as in their opinion best will promote the interests
28 of education in their districts."

29 (1-3) By the provisions of this Statute, broad power and
30 discretion are conferred upon boards of education to so assign pupils to
31 the various schools of their districts as they in good faith believe will
32 best promote the interests of education. The Court cannot control that

1 discretion or substitute its own discretion for that of the board of
2 education. Those affected by such order of assignment of pupils are not
3 entitled to a review of that action of the board in a mandamus proceeding.

4 Conditions manifestly made it necessary to assign many pupils
5 living in the vicinity of the Smith Place School to other schools. It
6 is to be observed that the relators' resided a half mile from the Smith
7 Place School. Action of the court directing that the assignment made by
8 the board of education be altered and the relators' children permitted to
9 attend the Smith Place School must logically be followed by the further
10 direction that two pupils assigned to that school be transferred else-
11 where. The court thus would be making a selection that is within the
12 absolute power and discretion of the board of education.

13 (4) Upon the matter of alleged discrimination, it may be
14 observed that the record discloses that heretofore white children have been
15 assigned to the Midland School and colored children have been assigned to
16 the Smith Place School; in fact, the oldest son of the relators' had
17 attended the Smith Place School through the entire seven grades. It does
18 not appear, therefore, that a fixed policy had been adopted by the board
19 of education making any classification, distinction or discrimination on
20 the basis of race or color.

21 It has not been established that the respondents have failed
22 or refused to perform a duty specially enjoined by law. The judgment of
23 the Court of Appeals is accordingly affirmed.

24 Judgment affirmed."

25 We submit that there is positively no evidence from which it
26 can be held that that Board has designedly and in bad faith segregated
27 any pupils in this district.

28 EL MODENA SCHOOL DISTRICT -

29 In this District two schools are maintained which give in-
30 struction from kindergarten to the 8th grade. The schools are located
31 upon the same campus and the playground area is about 100 yards square.
32 Reporters' Transcript page 334, line 2 to 10.

1 The Roosevelt School has four teachers and a pupil enroll-
2 ment of 108; of the 108 pupils 25 are of Mexican descent and 83 others.
3 Reporters' Transcript page 335, line 7. In the Lincoln School there are
4 eight teachers. There are enrolled in the Lincoln School 249 pupils all
5 of Mexican descent. It appears that it would be impossible to accommo-
6 date all the pupils in either the Roosevelt or Lincoln School. Reporters'
7 Transcript page 328, line 12. Reporters Transcript page 332, line 6 to
8 line 17, page 333. The children who enroll in the Lincoln School are
9 deficient in the English language. Reporters' Transcript page 301, line
10 11 to line 11, page 302. The children voluntarily enroll in the Lincoln
11 School. Reporters' Transcript page 302, line 11 to page 305, line 18.

12 There is no evidence that any person, other than petitioner
13 Ramirez ever made any request to enter their children in the Roosevelt
14 School.

15 It appears that the pupils from both schools have the same
16 opportunity to use the playgrounds. Reporters' Transcript page 296,
17 line 6 to 11, page 299 and page 344, line 2 to line 6, page 335.

18 The majority of American citizens in this district are of
19 Mexican descent. Reporters' Transcript page 328, line 18.

20 Never before the filing of this lawsuit did anyone complain
21 to any member of the School Board or the District Superintendent as to
22 the method under which the schools were being operated.

23 The petitioner Lorenzo Ramirez offered to enroll his children
24 after the school term commenced. At that time he was informed by Mr.
25 Hammerstein that the Roosevelt School was filled, that there were no
26 desks for his children in the Roosevelt School. Reporters' Transcript
27 page 280, line 18 to 25 and page 330, line 11 to line 23.

28 Here the School District is in good faith making the best
29 out of the limited facilities they have. The case of State v. Board of
30 Education of Wilmington School District 28 N. C. Rep. 2d page 497,
31 supra is squarely in point.

32 Clearly the School District here cannot be charged with

1 segregation solely on account of Mexican descent, as there are pupils of
2 Mexican descent in both schools.

3 The evidence is undisputed that at the time petitioner offer-
4 ed to enroll his children in the Roosevelt School there were no facilities
5 available to accommodate them at that school.

6 There is no evidence that this District ever at anytime re-
7 fused to admit any other pupils upon request.

8 THE WESTMINISTER SCHOOL DISTRICT -

9 This District did maintain two schools furnishing instruction
10 from the kindergarten to the 8th grade. In the Westminister School there
11 were enrolled 642 pupils of which 14 were of Mexican descent. In the
12 Hoover School there were enrolled 152 pupils of Mexican descent. The
13 two Schools were located three blocks of each other. That of the 152
14 pupils, only approximately 40% of them were unable upon entering the
15 first grade to speak or understand the English language.

16 In this District on January 16th, 1944, and before the filing
17 of this action, the Board of Trustees decided in good faith to unify the
18 two schools. So for as this District is concerned the issues of this
19 case are moot questions.

20 PETITIONERS ARE NOT REPRESENTATIVE OF ANY CLASS -

21 The Complaint alleges, No. XXIII, page 6, of the Petition:
22 "This action is brought on behalf of petitioners and
23 some 5000 other persons of Mexican and Latin descent and
24 extraction, all citizens of the United States of America,
25 residing within said District. That the questions in-
26 volved by these proceedings are one of a common and
27 general interest and the parties are numerous and it
28 is impractical to bring all of them before the Court.
29 Therefore, these petitioners sue for the benefit of
30 all."

31 The evidence shows that for educational purposes all persons
32 of Mexican or Latin descent are not in one class. Some of them speak

1 English with some degree of efficiency; others do not speak English.

2 The authority for bringing a class action in this type of
3 litigation is subdivision 3 of rule 23 Federal Practice and Procedure.
4 The basis of such a suit must be, "... a common question of law or fact
5 affecting the several rights....."

6 Actions brought under said subsection 3 of rule 23 are known
7 as The Spurious Class Suits. The judgments in such suits binds only
8 the named parties and all who had intervened, but would not bind others
9 beyond the principle of stare decisis, which operates as to all judg-
10 ments. (Moore's Federal Practice. Under the New Federal Rules, vol. 2
11 page 2241.)

12 GARDEN GROVE SCHOOL DISTRICT -

13 Here the petitioner, Frank Palomino, resides among the 279
14 who have segregated themselves by living nearer to the Hoover School
15 than to any other school in the District. Reporters' Transcript, pages
16 517, line 9 and page 45, line 4 to 14. His interest would be identical
17 with other pupils living nearest to the Hoover School who wished to
18 transfer to the Lincoln School, some 1½ to 2 miles distant. To hold
19 that Mr. Palomino's children must upon request be transferred to the
20 Lincoln School, this Court would have to hold that under Section 2204 of
21 the Education Code, the Board of Trustees are without authority to re-
22 quire pupils to attend the school nearest to which they reside. Such a
23 holding would be contrary to the authorities which are cited on pages
24 23 to 24 of this brief.

25 There is no common question of law or fact common to this
26 petitioner and any other witness in this District.

27 The principle of law applicable to the case of the petitioner
28 is entirely different than the principle to be applied in the cases of
29 the other witness produced by plaintiff.

30 In the case of the other witnesses, they resided nearer to
31 either the Lincoln School or the Bolsa School than to the Hoover School.
32 Reporters' Transcript page 9, line 25 and page 56, line 14 to line 18.

1 It might very well be held unreasonable to require pupils to attend a
2 school other than the closest to which they reside, if sufficient facil-
3 ities are available in the nearest school. Thus in this case, the peti-
4 tioner and the other witnesses are representative of two distinct classes.

5 Under the facts here it could very well be decided that Mr.
6 Palomino has no cause for complaint, while in a different action the
7 other witnesses would have.

8 To hold that Mr. Palomino must be permitted to transfer his
9 children to the Lincoln School would be to hold that any or all of the
10 279 pupils residing nearer to the Hoover School must be permitted to
11 transfer, thus taking from the Board of Trustees the right to make reason-
12 able or any rules or regulations as to the allocation of the pupils to
13 the schools established and maintained by it.

14 If it be concluded, as we deem it must be, that Mr. Palomino
15 be denied relief in this action, then the action as to this District must
16 fail and judgment should be for the defendant so far as this District is
17 concerned.

18 The rule is stated in 47 C. J. 99, on page 51:

19 "If the party named as plaintiff in a representative
20 suit fails in his suit, those whom he represents must fail,
21 for the rights of those represented cannot rise higher
22 than those of the party named as plaintiff."

23 SANTA ANA SCHOOL DISTRICT -

24 In the Santa Ana District the petitioner and Mrs. Fuente are
25 undoubtedly in one class.

26 EL MODENA SCHOOL DISTRICT -

27 In this District it appears that petitioner Lorenzo Ramirez
28 enrolled his children, after the term had commenced. Reporters' Tran-
29 script page 329, line 2 to 6. That at that time the Roosevelt School
30 was filled to capacity. He didn't request that the Roosevelt School be
31 opened to all pupils of Mexican descent. Reporters' Transcript pages
32 330, line 11 to 16.

1 The other witness in this District stated that for more than
2 five years prior to the commencement of this action, no one had asked
3 admission to the Roosevelt School. Clearly it cannot be said that this
4 petitioner represents anyone other than himself.

5 WESTMINSTER SCHOOL DISTRICT -

6 In this case the petitioner did make some showing that he
7 represented a class of persons of Mexican descent, but it must be assumed
8 that he represents a class of Mexican descent who speak the English
9 language to some degree of efficiency.

10 ANSWER TO PLAINTIFFS' ARGUMENT ON THE FACTS

11 In discussing the Garden Grove District page 8 to 18 of
12 Plaintiffs' brief, an effort is made by Plaintiffsto make it appear that
13 Mr. Kent personally does not have a high regard for persons of Mexican
14 descent. In this effort Plaintiffs' cite isolated excerpts from the
15 record and reaches unwarranted conclusions. Plaintiffs' wholly ignore the
16 facts as they pertain to this District.

17 We have set forth the facts as they appear to us on page 11
18 to 20 of this brief.

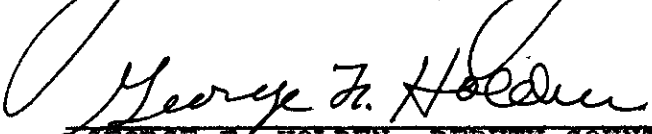

19 We have also set forth hereinbefore the facts as we see them
20 from the record, as they pertain to the other districts.

21 CONCLUSION

22 We submit that the evidence wholly fails to show that any
23 rule or practice of any of the school authorities in any of the districts
24 are in violation of any provision of the Constitution of the United
25 States or any law of the United States, and that judgment herein should
26 be for~~e~~ Defendants.
